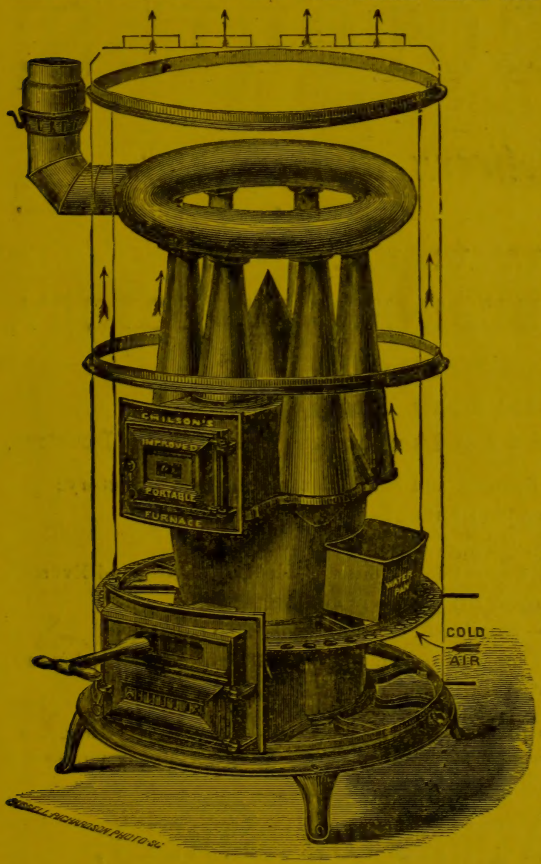
THE ARLINGTON PORTABLE RANGE.

CHILSON'S NEW RANGE, 1872.

The first sight of this new and splendid Portable Range will convince all that its equal has never been seen,—in its Beautiful Design, Superior Fine Heavy Castings, with and without Hot Closets, and Reservoirs; also, Hot Water Fronts for Bath Boilers, Sifting Grates, Ash Pans, etc.

Housekeepers will be pleased with this PORTABLE RANGE.

CHILSON'S CELEBRATED AND UNRIVALLED BRICK AND PORTABLE FURNACES,



Ten Sizes.

Patented in the United States, England and France.

The high reputation this furnace has acquired, in the use of more than twenty thousand, places it pre-eminently ahead of any other known plan for thoroughly and economically warming buildings. The cuts of the brick or portable furnaces will show at a glance to any intelligent mind the wonderful heating powers, a cluster of tapering Radiators standing directly over the fire, must have over any other form of heating surface, and which is so constructed as to be perfectly gas and smoke tight. Any one in want of a furnace should not fail of thoroughly examining this furnace.

Special attention given to putting up furnaces and Ranges, and the ventilation of buildings in every part of the country.

☞ Nothing but strictly first-class work is manufactured by me.

INTRODUCTORY.

THE Directory of Cambridge is again presented to our patrons and those having occasion to use it. The difficulty of compiling a City Directory can hardly be understood, and is not easily explained; yet we believe the Directory for 1874 is more nearly correct than any of its predecessors.

The Directory contains a great amount of information concerning the public, religious, charitable, and private institutions of the city, which makes it a valuable present record as well as an historical authority.

Every person should have at his place of business, or at his house (or both), a Directory, not only as a daily convenience, but also as a valuable re rd of local history.

Owing to the increased expense of publishing the Directory, caused by the rapid growth of the city, we feel compelled to raise the price this year to $2.50 per copy.

While many of the business men of Cambridge patronize the Directory in a public spirited manner, there are a large number of others, who, while willing to get *all of the benefits* arising from the *free insertion* of their names under the various business headings, etc., do nothing towards supporting the work. Many persons rely upon their neighbors' generosity by borrowing; others purchase a copy of the work instead of inserting their card in the advertising department. To such we take this opportunity to say, that to publish a first-class and reliable Directory, we need the patronage of *every business man* in the city. The cost of inserting your business card for a year in the Directory is trifling, compared with other methods of advertising, and the advantages directly or indirectly accruing from such outlay must amply repay you.

This year's Directory contains 15,650 names, and on the basis which has been found to be nearly correct, of three and one-fourth persons to each name, gives a population of 50,862.

Truly yours,

BOSTON.

E. D. SPEAR, M. D.,

THE OLD INDIAN DOCTOR,

So much Celebrated for his Remarkable Cures.

713 WASHINGTON STREET, BOSTON.

☞ Dr. Spear can be consulted upon all Diseases. ☜

DR. SPEAR has issued a small work in which he says: — In preparing the Medical Hand-book, for the afflicted and the public at large, which is designed to take the place of the more bulky "Family Physician," the author and publisher has several objects in view. The first was to bring it into a more portable size, by eliminating and condensing a large amount of reading matter, and omitting many testimonials received in his earlier practice, thus meeting the demand of this fast and busy age, when few can stop to read long homilies on any subject. But the principal and most important object was to bring to the notice of the public a sample, at least, of the great mass of certificates and testimonials he has received within the last few years, and is now constantly receiving. To these he bespeaks the careful attention of the reader; and he refers to them in no boasting spirit, but simply as evidence that his study and effort to relieve suffering humanity have met with gratifying success. In this regard, he can cheerfully submit his claims as a successful physician, to that truest and most sacred of all tests, "By their fruits shall ye know them."

It may be thought by many hardly necessary to say, after communicating with the public so often and for so long a time, that his treatment of diseases is peculiar to himself; but for the benefit of those just coming upon the stage of action, it may very properly be dwelt upon for a moment. Suffice it to say, in brief, that he has discarded many of the crude and absurd notions that obtained among practitioners of past ages, and clung to by many with surprising tenacity at the present day, and after careful study and diligent research into the various systems of practice, has adopted a system which has common sense combined with science as its basis. Upon this sure foundation, by the full use of his reason and judgment, he has drawn from Nature those pure and safe remedies, which, though all powerful in removing disease, and bringing to the patient joyous and gladsome health, leave no lifelong sting behind.

To the sick, therefore, he feels authorized to speak words of encouragement and hope. As will be seen by reading the testimonials, many who were near the gates of death, and given up as lost, have been rescued by his hand and restored to health. Others who are now suffering with little hope of relief, he believes may also be made to enjoy the rich blessings of health. The afflicted, then, of whatever nature, he invites to come to his office, No. 713 WASHINGTON STREET, BOSTON, with the assurance that his utmost skill shall be exerted in their behalf.

☞ The "Medical Hand-book" may be had free. Enclose stamps.

The Mercantile Agency,

FOR THE PROMOTION AND PROTECTION OF TRADE.

Established by LEWIS TAPPAN in New York, A. D. 1841, by LEWIS TAPPAN and EDWARD E. DUNBAR in Boston, A. D. 1842, and since then in undernamed Cities of this country, Canada, and Europe.

BOSTON OFFICE,

Merchants' Exchange Building, 51 State St.

Worcester Office, No. 452 Main St.

Portland Office, No. 88 Exchange St.

This Institution has enjoyed for more than thirty years the confidence and patronage of the leading Bankers and Merchants of New York and Boston, and has acquired that of all live business men in other cities of this country and British Possessions and the Eastern Continent, as they have become acquainted with it by the successive establishment of Branch offices in their midst.

Originally established with the view to give to subscribers simply details as to the character, responsibility, and trustworthiness of those to whom they were called on to sell goods, two other features were added some years ago. One, the ***Collection of Overdue Claims.*** The other, ***The Mercantile Agency Reference Book.***

For collection of debts the Agency has superior facilities.

The Reference Book, wherever seen, recommends itself and the offices that jointly prepare and issue it, yet no one who uses it has probably any idea of the amount of money and labor employed in the collection of the information which forms the basis for each issue of the Reference Book. Its general accuracy testifies to the care bestowed upon the work and the facilities acquired for its production, while the system of ratings adopted—severing as it does the property qualification and presenting that by the side of the credit rating—is eminently useful and satisfactory, while it is at same time a constant challenge to adverse criticism.

INSTRUCTION TO KEY HOLDERS.

Alarms are to be given from the box nearest the location of the fire.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go.

Each box contains a small bell, which, if heard before you pull, indicates that the alarm has been previously given. Any person listening at a box will learn the number of the box from which the alarm was given. For instance: If an alarm proceeds from box 36, the bells and gongs attached will strike three, then, after a short pause, six consecutive blows, thus: III — IIIIII.

Don't give an alarm for a fire seen at a distance, unless assistance is called for.

Citizens are earnestly requested to inform themselves where keys to the signal boxes are kept; signs, suitably inscribed, being placed over each box, giving the requisite information.

P. H. RAYMOND,
Chief Engineer Fire Department.

WHY DOES THE

"Superb" Cooking Stove stand as the Best Stove in the market?

1. In economy of fuel. It takes one-third less than other stoves. 2. Its perfection in baking. It has no equal. 3. Its Shaking and Sifting Grate. No dust in room. 4. Check Drafts in front and back. 5. Smoothness of Castings and Ash Pan. 6. Beauty in design, and arrangement of flues.

This Stove is warranted not to crack, and to give satisfaction, or Money will be refunded.

READ THIS RECOMMENDATION.

MR. S. TAYLOR, Dear Sir:

As some of the dealers in Stoves have slightingly spoken of the "SUPERB" as an inferior Stove, you are authorized to make this proposition: any Stove that equals the "SUPERB" in economy in fuel, and in baking, you will forfeit the Stove.

In behalf of the Somerset Co-Operative Co.,
